

From Pixels to Patchwork

AI-inspired impressionist quilts

WORKSHOP | 6 HOURS

WORKSHOP OVERVIEW

FIRST HOUR

An engaging introduction to artificial intelligence focused on key concepts and how AI connects quilting and creativity.

SECOND HOUR

An in-depth look at AI and quilting with a trunk show. We'll discuss art movements like Impressionism, Pop Art, and Fauvism, explore prompt creation, and tackle copyright and ethics topics.

THIRD HOUR

Combine creativity with practical AI tools. We move from color theory to hands-on design using AI to create quilt blueprints.

FOURTH HOUR

Refine your designs and prepare them for fabric. Resizing, image adjustments, and fabric selection topics help bring out the intended mood and vibrancy.

FIFTH & SIXTH HOUR

Transform AI-generated designs into fabric using my "commando appliqué" technique. With provided kits, practice transferring digital concepts into physical patchwork, turning pixels into quilts.

About Theresa Benson, *The AI Quilter*

Theresa Benson is a nerd-turned-technology-executive who also happens to be an award-winning quilter, author, teacher, and podcaster. She's most at home helping creatives cut through the noise, rethink tradition, and make big ideas feel doable.

Room Setup:

- Robust guest Wi-Fi available.
- Power for participants to plug in their devices.
